

CHILD MARRIAGE AND OTHER CRIMES AGAINST CHILDREN IN MADHYA PRADESH

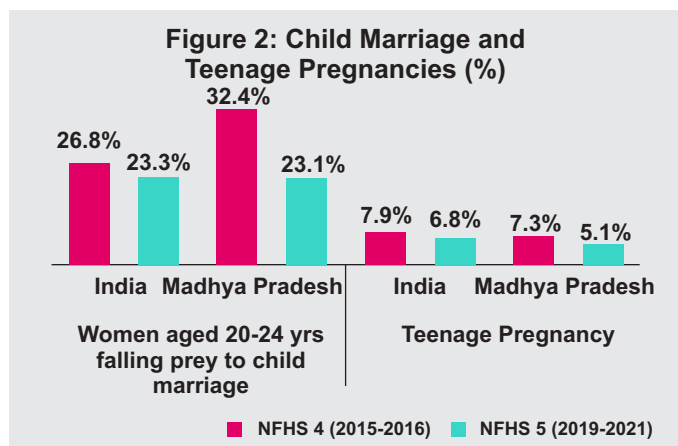

Child marriage (i.e., marriage of girls below the age of 18 and boys below the age of 21) in India is one of the most serious crimes committed against children. It is prevalent in most of the States/UTs despite a law (Prohibition of Child Marriage Act, 2006) to root it out. Child marriage ends childhood and puts children at high risk of violence, exploitation, and abuse. It also adversely impacts their rights to education, health and protection.

A total of 1,49,404 crimes against children were recorded in India in 2021, indicating an average of 409 such cases reported each day during the year. This included a total of 1,050 cases registered under the Prohibition of Child Marriage Act, victimising 1,062 children. Of all the registered crimes against children across the country in 2021, a staggering 13 percent were from Madhya Pradesh alone (19,173). The state stands at the 1st position, in terms of percentage share of the total crimes committed against children during 2021 in the country.

A comparison with last year's reported crimes in Madhya Pradesh shows a 13 percent increase in the total number of crimes against children (from 17,008 in 2020). The number of victims of child marriage decreased only marginally (from 5 in 2020 to 4 in 2021), compared to the national average of 34 percent increase (from 792 victims in 2020 to 1,062 in 2021).

Child Marriage

- During the last 3 years, the number of victims of child marriage in Madhya Pradesh has remained more or less unchanged, from 4 in 2019 to 5 in 2020 to 4 again in 2021 (Figure-1).
- While there is a 3.5 percentage point decrease in women aged 20-24 years falling prey to child marriage between 2015-16 and 2019-21 (from 26.8% to 23.3%) in India, there has been a greater fall (9.3%) in Madhya Pradesh (from 32.4% to 23.1%) during the same period.
- As per the Census 2011, in Madhya Pradesh, a little more than 8.9 lakh children were married off before the attainment of the legal age of marriage, which constituted approximately 7 percent of all married children in the country. However, NCRB data suggests that cases of only 13 children were registered in the state under the Prohibition of Child Marriage Act during 2019-21.
- Court disposal of cases under Prohibition of Child Marriage Act:
 - The conviction rate in child marriage cases in India is extremely poor at a mere 10 percent, the lowest conviction rate of all types of crimes committed against children. In 2019, 2020 and 2021 the number of cases which ended with conviction was only 12 (out of 1,640), 6 (out of 2,092) and 10 (out of 2,865) respectively.
 - At the end of 2021, a mounting 96 percent child marriage cases in the country were pending trial (2,761 cases pending out of 2,865 cases).

Teenage Pregnancy

Teenage pregnancy¹, which is primarily a consequence of child marriage, has come down from 7.9 percent in 2015-16 to 6.8 percent in 2019-21 at the all-India level. The corresponding decrease in Madhya Pradesh has been from 7.3 percent to 5.1 percent (Figure-2).

Sexual Violence

- The total number of POCSO cases in the state came down only marginally between 2019 to 2021 (from 6,123 in 2019 to 6,070 in 2021), as compared to a 14 percent increase (from 47,335 in 2019 to 53,874 in 2021) at the national level.
- The percentage share of child rape cases to the total POCSO cases stands at 62 percent at the national level in 2021. In Madhya Pradesh, the same is a little lower (58%) than the national average in 2021.
- Court disposal of POCSO cases:
 - The conviction in POCSO cases in terms of absolute numbers increased from 3,686 (out of 9,316 cases in which trial was completed) in 2020 to 5,156 (out of 15,989 cases in which trial was completed) in 2021.

- In Madhya Pradesh, 482 POCSO cases reached conviction out of 1,430 cases in which trial was completed in 2020².
- At the end of January 2022, a total of 2,26,728 POCSO cases were pending trial in the country, of which 10,409 cases were from Madhya Pradesh³.

Child Trafficking

Source: Crime in India (2019-2021), NCRB, Govt. of India

- In Madhya Pradesh, of the total victims of trafficking, a little more than 55 percent (87 out of 157) were children as compared to 44 percent (2,877 out of 6,533) at the national level in 2021.
- The total number of victims of child trafficking in Madhya Pradesh has decreased by 31 percent, from 123 in 2019 (76 girls and 47 boys) to 87 (56 girls and 31 boys) in 2021. Girls constituted 64 percent of the total trafficked children in 2021 as compared to the national average of 45 percent.

Missing Children

- The total number of missing children in the state increased by 5 percent during 2019 to 2021 (from 11,022 in 2019 to 11,607 in 2021), as compared to a six percent increase at the all-India level (from 73,138 in 2019 to 77,535 in 2021).
