

CHILD MARRIAGE AND OTHER CRIMES AGAINST CHILDREN IN DELHI

Child marriage (i.e., marriage of girls below the age of 18 and boys below the age of 21) in India is one of the most serious crimes committed against children. It is prevalent in most of the States/UTs despite a law (Prohibition of Child Marriage Act, 2006) to root it out. Child marriage ends childhood and puts children at high risk of violence, exploitation, and abuse. It also adversely impacts their rights to education, health and protection.

A total of 1,49,404 crimes against children were recorded in India in 2021, indicating an average of 409 such cases reported each day during the year. This included a total of 1,050 cases registered under the Prohibition of Child Marriage Act, victimising 1,062 children. Of all the registered crimes against children across the country in 2021, about 5 percent were from Delhi (7,118). It stands at the 8th position, in terms of percentage share of the total crimes committed against children during 2021 in the country.

Child Marriage

- During the last 3 years, the number of victims of child marriage in Delhi has been fluctuating, from 2 in 2019 to 4 in 2020 to again 2 in 2021 (Figure-1).
- There is a 3.5 percentage point decrease in women aged 20-24 years falling prey to child marriage between 2015-16 and 2019-21 (from 26.8% to 23.3%) in India and the corresponding decrease is 4.4 percentage point in Delhi (from 14.3% to 9.9%) during the same period.
- As per the Census 2011, in Delhi, 84,277 children were married off before the attainment of the legal age of marriage, which constituted approximately 1 percent of all married children in the country. However, NCRB data suggests that cases of only 8 children were registered under the Prohibition of Child Marriage Act during 2019-21.
- Court disposal of cases under Prohibition of Child Marriage Act:
 - The conviction rate in child marriage cases in India is extremely poor at a mere 10 percent, the lowest conviction rate of all types of crimes committed against children. In 2019, 2020 and 2021 the number of cases which ended with conviction was only 12 (out of 1,640), 6 (out of 2,092) and 10 (out of 2,865) respectively.
 - At the end of 2021, a mounting 96 percent child marriage cases in the country were pending trial (2,761 cases pending out of 2,865 cases).

Teenage Pregnancy

Teenage pregnancy¹, which is primarily a consequence of child marriage, has come down from 7.9 percent in 2015-16 to 6.8 percent in 2019-21 at the all-India level. In Delhi however, it has increased from 2.1 percent to 3.3 percent (Figure-2).
