

CHILD MARRIAGE AND OTHER CRIMES AGAINST CHILDREN IN TELANGANA

Child marriage (i.e., marriage of girls below the age of 18 and boys below the age of 21) in India is one of the most serious crimes committed against children. It is prevalent in most of the States/UTs despite a law (Prohibition of Child Marriage Act, 2006) to root it out. Child marriage ends childhood and puts children at high risk of violence, exploitation, and abuse. It also adversely impacts their rights to education, health and protection.

A total of 1,49,404 crimes against children were recorded in India in 2021, indicating an average of 409 such cases reported each day during the year. This included a total of 1,050 cases registered under the Prohibition of Child Marriage Act, victimising 1,062 children. Of all the registered crimes against children across the country in 2021, about 4 percent were from Telangana (5,667). The state stands at the 13th position, in terms of percentage share of the total crimes committed against children during 2021 in the country.
